

Nozevit +

Your partner in beekeeping

Only natural ingredients

Specific knowledge of the most experienced beekeepers complemented with the latest scientific research insight through the years has enabled us to improve our traditional recipe of Nozevit. New formula contains same active ingredients as Nozevit, plus vitamins, essential oils and citric acid. Therefore, Nozevit+ is completely natural herbal product.

Benefits:

- only natural ingredients
- leaves no residue in honey or wax
- suitable for eco beekeeping
- efficient both as preventive method and for treating weak beehives
- proven in continuous clinical and practical testing
- easy application

Benefits of additional ingredients:

- vitamins are essential nutrients with a number of important biological functions and they make your bees stronger and more productive
- essential oils improve the resistance of the bees and also calm the bees when you are working them
- citric acid is a weak organic acid that stabilises intestinal pH and improves digestion, therefore helps bees to recover faster

How to use:

Apply 1 ml (20 drops) per beehive in one of three possible ways:

1. In sugar syrup: add 1 ml of Nozevit+ in 200 ml of sugar syrup (in 1:1 ratio),
2. In pollen patty: add 1 ml of Nozevit+ per 500 g of patty,
3. By spraying: add 1 ml of Nozevit+ in 200 ml of sugar syrup and spray the bees in the hive with it.

Regardless of the way of usage, use Nozevit+ as a feed supplement 2 times in spring (10 days apart) and 2 times at the beginning of autumn (10 days apart).

Bottle of Nozevit+:	Annual dose (4 treatments) for:
1000 ml	250 beehives
500 ml	125 beehives
200 ml	50 beehives
50 ml	12 beehives

Available sizes: 50 ml, 200 ml, 500 ml, 1000 ml.
